Kreiva Academy Charter School

The following is an explanation of student progress on learning targets that make up the Kreiva Academy competencies. Each Competency has a set of associated learning targets that denote skills that make up a competency. Each learning target score is based on the compilation of student work that was completed and aligned to the given target. The learning target score demonstrates current level of achievement of the learning target. Students start working towards credit once a score of a 3 is reached on a target. Scoring is as follows: 0=not demonstrated, 1=Emerging, 2=Basic Proficiency, 3=Proficient, 4=Exemplary.
